# NEW MEXICO ORTHOPAEDICS

EXCELLENCE IN MOTION

## QUICK CARE CENTER

### **Urgent Orthopaedic Need?**

When you get injured you deserve to see a great provider, fast.

- Acute injuries, fractures and lacerations of arms, legs, knees, wrists, hands, feet, fingers and toes.
- Dislocated fingers and toes
- Treatment of sprains, strains and ligament damage
- Cast application and removal
- Diagnostic testing and imaging
- Other acute injuries.

You do not want to wait, and you don't have to – the best care can be found quickly at New Mexico Orthopaedics. Call for an appointment with our Quick Care team. An orthopaedic surgeon, nurse practitioner or physician's assistant and our ancillary staff and services (MRI, X-Ray and Physical Therapy) come together as a team to assess, diagnose and treat your injury. Eligible Quick Care patients can be scheduled for a visit within one to two days.

It's the best care available in the shortest possible time – often 30 minutes to two hours.

By getting you in and out quickly, we put you on the fast track to recovery and save you the time, money and frustration of visiting other doctors or emergency centers.

As needed, we will also help fit and dispense medical equipment and refer you to our physical rehabilitation department.

---

### **Fast Facts About Quick Care**

- Designed for acute injury treatment
- Quick Care is NOT a walk-in clinic. Be sure to call and schedule your appointment in advance.
- If you were treated in the Emergency Room, you may be referred to call the number below to schedule your follow-up care in the Quick Care Center.
- Before calling to make an appointment please have the following available:
  - Type of injury
  - Previous treatment of injury
  - Recent treatment in an Emergency Room
  - Patient's Insurance Information
- Please arrive 30 minutes early for your appointment to allow for parking and check-in.
- Although Quick Care is only open on weekdays, you can call in to our clinic's voice mail box at **(505) 768-7507** during the weekends and we will call you back to schedule the first available appointment.
- New Patient forms are available on the website.
