WORKLINK

WORKERS COMPENSATION

When you are injured on the job you want a team of highly qualified individuals working with you on recovery. Our long standing professional position of unparalleled service to the workers compensation community of New Mexico speaks to the quality of care on which we have built our reputation. It also demonstrates our ability to navigate the system on your behalf.

We strive to balance all aspects of your recovery so that you regain strength, mobility, confidence and functionality through a respectful, supportive system of care.

Our physicians specialize in Sports Medicine, Spine, Hand and Upper Extremity, Total Joint Replacement, Shoulder, Foot and Ankle, and General Musculoskeletal Care.

With four locations throughout Albuquerque and a full array of orthopaedic and ancillary services available to you, we will make your care your easiest challenge. We offer:

- Surgical care
- Non-surgical care
- Diagnostic services
- MRI and X-Ray services
- Physical therapy

New Mexico Orthopaedics' Worklink physicians and staff understand the unique needs of Workers Compensation patients and professionals. We are committed to providing excellent patient care to all who have been hurt or injured on the job, and understand how to help coordinate services.

Our Worklink department serves as a liaison between our physicians and the many other parties involved in an injured worker's care. Whether you are a patient, an employer, a case manager or a referring provider, we have the expertise to meet your needs.
